SUMMARY

Innovative Front-End Developer with hands-on expertise in building interactive, user-friendly, and responsive web applications. Proficient in **HTML & CSS, Tailwind CSS, JavaScript, React, and Next.js**, with a strong focus on delivering seamless user experiences through clean, scalable code. Passionate about learning new technologies and applying them to solve real-world problems with creative and efficient solutions.

EXPERIENCE

Frontend Developer

CodeAlpha   **July 2024 -August 2024, Lucknow, , India**

· At CodeAlpha, I was a front-end developer focused on creating visually appealing and user-friendly websites. I wrote clean code using HTML, CSS, JavaScript, and React, and worked closely with designers and back-end developers to ensure seamless integration and functionality.

PROJECT

Smart Trip AI

github.com/sagarsinghthakur002/Smart-Trip.git

· Developed **Smart Trip AI**, an intelligent travel assistant that utilizes AI to generate personalized trip plans based on user preferences and real-time data.
· Integrated APIs like Google Maps and weather forecasting to optimize routes, suggest attractions, and enhance travel experiences.
· Implemented a user-friendly interface using **React** and **Tailwind CSS**, ensuring seamless interaction and responsive design across devices.
· Focused on enhancing user experience by incorporating smart recommendations, itinerary customization, and cost estimations.

Real Estate Website

github.com/sagarsinghthakur002/Real-Estate-Website.git

· Created a fully responsive **Real Estate Website** using **React** and **Tailwind CSS**, designed to showcase property listings with a clean, user-friendly interface.
· Implemented features such as property search, filtering by location/price/type, and detailed property views to enhance user experience.
· Integrated **React Router** for smooth navigation between pages and **AOS (Animate On Scroll)** library for interactive animations.
· Ensured scalability and performance with modular components, reusable layouts, and responsive design across all devices.

Ecommerce Website

github.com/sagarsinghthakur002/Ecommerce-Website.git

· Built a fully functional **Ecommerce Website** using **React** and **Tailwind CSS**, designed for a smooth shopping experience with a modern UI.
· Implemented core features such as product listings, dynamic product pages, cart functionality, and responsive layouts.
· Integrated libraries like **AOS** for scroll animations and **Slick Carousel** for interactive product sliders and showcases.
· Focused on reusable components, clean code structure, and seamless navigation using **React Router**.

EDUCATION

Bachelors in Computer Application

Triton International College, · Koteshwor , Kathmandu · 2026

+2 , computer science

Kathmandu BernHardt College · Kathmandu , Nepal · 2021 · 3.00
